TYLER ARNDT

Tyler is a Chicago-based designer and manager looking to make the leap to full-time front-end web development. With a background in site design, Tyler has played a key role in the planning and execution of high-quality end-user experiences while managing six-figure budgets and maximizing production efficiency.

His project list includes an array of online design portfolios, personal blogs, and professional websites for small business owners. Each project is driven by a deep understanding of his clients' goals and is completed with clear, legible content and pixel-perfect graphic displays. Tyler drives traffic to his clients' sites through ongoing SEO efforts and maintains user engagement with timeless design techniques.
